LOAD HANDLING DEVICES

ARES 65

ARES 65

Typical telescopic fork that's particularly used in the sector of automated warehouses to move the 800x1200 euro-pallet. The small size and the limited bending make it suitable for a large number of purposes.

As for the transmission system, both chains and racks-and-pinions are available, the choice of the transmission depending on the operating environment; hence, it's recommended to consult LHD's technical staff.
