# ZEUS 65-165

Along with her sister ZEUS 75-172, this is the queen of all LHD telescopic forks, thanks to both its performances and its versatility. Its small size, the operating speed and the small bending when picking up/laying down the load make the ZEUS 65-165 an essential equipment for those who want be performing and competitive in their sector. Backed up by its components - that are not extruded or assembled, but rather milled from a wholepiece - the ZEUS 65-165, with both engines operating independently, allows to take advantage of the operating site at its best by optimising the stroke movements even in narrow required spaces,
